

Data Management Services

OVERVIEW

The St. John Group (TSJG) has provided strong data management solutions to the Centers for Disease Control and Prevention (CDC) since 2006. The St. John Group is a Veteran-Owned Small Business (VOSB) that holds two GSA Multiple Award Schedules (MAS) and two CIO-SP3 Small Business GWACs that support Federal procurements. *Since 2019, The St. John Group has partnered with Tanaq Management Services and Tanaq Support Services. Tanaq is an Alaska Native Corporation (ANC) and SBA Certified 8(a) organization. Tanaq's 8(a) status enables Federal customers to streamline the acquisition process through the direct award mechanism.*

Select Data Management Projects

APHL INFORMATICS TECHNICAL ASSISTANCE

Period of Performance: 06/01/2008 – 06/30/2025

Contract Number: 56401-250-513-23-01

Engagement Lead: Vanessa Holley (APHL)

CO: Leslie McElligott (APHL)

Personnel provided: Senior Project Managers; Project Managers; Technical Architects; Software Developers; Vocabulary/ Terminologists; Business Analysts/Project Coordinators

Activity: The St. John Group (TSJG) provides data management services to the Association of Public Health Laboratories (APHL) in support of CDC and State Public Health Laboratories (PHLs). Projects include:

- Public Health Laboratory Interoperability Project (PHLIP) and Vaccine Preventable Diseases (VPD)
- National Public Health Electronic Case Reporting (eCR) Initiative
- Electronic Test Orders and Results (ETOR) Initiative
- North American Association of Central Cancer Registries (NAACCR)
- Antimicrobial Resistance Laboratory Network (ARLN)
- National Notifiable Disease Surveillance System (NNDSS)

Core to these efforts is TSJG's vocabulary and terminology work, where we provide extensive HL7 Messaging, SNOMED and LOINC support. This work maps state laboratory data to CDC systems and requirements.

NCIRD MS OFFICE PRODUCTIVITY SUITE SUPPORT

Period of Performance: 09/24/2021 – 03/23/2027

Contract Number: 75D301-21-C-12292

CO: Le Doan

COR: James Williams

Personnel: Program Manager; SharePoint Developers; Business Process Consultants; Database Developers

Activity: Tanaq Health and The St. John Group (as Teammate) support NCIRD programs on data analysis and reporting activities. Activities include:

- Creating and managing a SharePoint portal for the Respiratory Syncytial Virus (RSV) global surveillance
- Applying technologies for efficient accessing, processing, management, analysis, and communication of observational data
- Providing support to the DVD program on ELIMS data reporting and data management tasks
- Developing, implementing, and maintaining standards for data validation, storage, quality, and reporting
- Assisting in the migration of the Division of Viral Disease Assay Inventory Database
- Utilizing CDC enterprise data reporting technologies to develop innovative reports and dashboards in support of different projects. Examples of technologies include SAS, SUDAAN, Power BI, etc.

GHC DGHT SCIENCE INTEGRITY BRANCH SUPPORT SERVICES

Period of Performance: 08/13/2021 – 08/12/2026

Contract Number: 75D301-21-C-10613

CO: Monica Shaw

COR: Brandi Collins

Activity: Tanaq Support Services and The St. John Group (as Teammate) provide medical epidemiology, social science, and clearance support to international public health programs. This work includes:

- Medical Epidemiology – Reviewing protocols, manuscripts, and abstracts for the validity of epidemiological methods
- Social Science – Reviewing protocols, manuscripts, and abstracts to support DGHT compliance with the data management and access policy (OMB-M-13-13 and Executive Order 13642)
- Clearance Support – Supporting the review and approval of DGHT clearance actions (e.g., funding, protocol, publication) per branch standard operating procedures (SOP)
